RAKOLL® PUS 555

Polyurethane based Reactive Hot Melt Adhesive for Straight Edgebanding

RAKOLL® PUS 555 was developed to fulfil the market requirements for higher green strength combined with excellent water- and heat resistance.

For straight edgebanding of wood and wood-based substrates with all typical edgebanding materials.

Woodworking

Advantages of RAKOLL® PUS 555

Fast strength increase	The short open time of the product provides fast strength increase to prevent substrate lift and maintain bond integrity during processing.
Versatility	Suitable for all traditional edgebanding materials, e. g. melamine edges, solid wood edges as well as PVC-, ABS, PP edges. Good bonding properties achievable.
Productivity	Excellent strength increase even at higher ambient- and material temperatures for easy processing to help optimise productivity.
Flexibility	Suitable for line speeds from 10 to 80 m/min.

Collaborating for Greater Success

With the full strength of our innovation, performance and knowledge behind you, H.B. Fuller works tirelessly to invent new products and tailor formulations to help you achieve greater success.

As your focused partner, H.B. Fuller delivers the technical support and value adding solutions you need. Do you have a specific challenge that H.B. Fuller can help you navigate? We're eager to be your partner for adhesives and solutions.

Our Focus is Clear. Perfecting Adhesives.
